NUMBERS THAT WORK FOR YOU

...had new twists and turns but
we can now see the finish line!

2022

Let's review '22!

This year had its pits and peaks.

Grab a pen - and a moment - to reflect on your highs, your lows, and where you 'want-to-goes'.

Summarise where you are now and how you'll get to where you want to be in '23.

Now, set a Big Hairy Audacious Goal!

A BHAG pulls you out of short-term thinking to look boldly forward. It should be an outrageously ambitious 10-25 year goal and help you align and stretch your goals when you create your 2023 Business Plan.

What's your

BHAG?

Put your scribbles somewhere safe for the new year.

Yee haa!

The staff party's back!

Dress up,
have fun,
celebrate your
individuality,
and fill up that
cup!

4. Ensure the basics - exercise regularly, eat well and get enough sleep!
5. Build a personal support network.
6. Take 10 if you're feeling unproductive - (10 minutes, 10 breaths, 10 yoga poses, etc.).

**No headspace
for buying gifts?**

Minimise waste and maximise memories by gifting an experience. You don't even need to leave your house (or pyjamas).

Freedom is a state of mind.

With borders open, tropical holidays are trending.

If 2022 was a cocktail it would be an...

Island Sunrise

60ml white rum
120ml pineapple juice
30ml orange juice
30ml coconut cream
Ice cubes
15ml grenadine
Freshly grated nutmeg

Add the rum, pineapple juice, orange juice, coconut cream and ice to a shaker. Shake vigorously then strain into a tall glass. Pour in the grenadine for a red ombré and add some freshly grated nutmeg.

If you can't make it
to a tropical island, turn
up the heater and add a
dash of imagination!

Consider Secret Santa for family & friends...

Set a value or theme, e.g. homemade or re-gift. Spend less money, create less waste, and everyone gets a gift!

Planning ahead (with our support),
could maximise your financial freedom!

Festive risks to manage:

1. Buying now, paying later.
2. Last-minute shopping chaos.
3. Using a credit card while under the influence.
4. Watering the Christmas tree with its lights on.
5. Peaking too early.
6. Talking politics.
7. Forgetting to buy batteries for the kids' toys.
8. Under (or over) cooking the turkey.
9. The amount of brandy in Nana's Christmas cake.

**Managing risks in your business will
help you gain some control
of the somewhat uncontrollable.**

2022 goodbye...?**
