Helping you multiply your free time to multiply your success

It's no mystery that creating a successful business takes time! That's why at Go Fi8ure, the team of bookkeepers and accountants are in the business of giving you more time; helping you to stimulate the growth of both your business and your passion.

In 2002, Lisa Martin started Go Fi8ure to respond to a key need of small businesses – the need for more time.

Armed with 20 years of financial and accounting experience, that includes 14 years as a finance manager for an international company, a Diploma of Business specialising in management accounting and human resources, Lisa acknowledged that dealing with such everyday accounting tasks as bookkeeping, payroll and creditor management is just as time-sapping as it is crucial.

At Go Fi8ure, Lisa and her team have a combined experience of over 55 years in a variety of accounting disciplines which offers you cutting edge knowledge, and the peace of mind that comes from working with seasoned accounting professionals.

The great thing about Go Fi8ure is that they are a small business helping small businesses! Furthermore, their senior staff members know

what it means to own and operate your own business, and the sacrifices and responsibilities that come with that commitment.

This enables them to give you relevant solutions with the hindsight of understanding; giving you answers that take more than just figures into account.

Go Fi8ure's efficient, economical and mobile service is perfect for small and medium-sized businesses in the greater Wellington region. They can help with everything from a bank or GST reconciliation to management accounting, payroll and reporting for a business as big as 30 staff.

If your accounts have been left gathering dust, or you are being chased by the taxman and you need to reconcile multiple years in one go, Go Fi8ure can help. Better yet, they will get you back on track to make sure your finances are easier to manage in the future.

Make the choice to be proactive about your business's finances and administration. Leave financial stress behind and let Go Fi8ure develop and manage a financial solution that fits your needs so that you can focus on your passion: growing your business.
